WE PROVIDE TOTAL **LOGISTICS**
SERVICES FROM INDIA

THE COMPANY & THE AMAZING JOURNEY

Shaan's Cargo was established in November 1992 at Tirupur, the world-renowned garment city of India.

The initial objective was to perform only as Customs Broker in India. The firm soon won the confidence of the major exporters with its personalized and dedicated services.

This encouraged the formation of **Shaan's Cargo Private Limited**, registered under India Companies Act 1956.

Over the years, **Shaan's** met the varied challenges of international Freight Forwarding and experienced tremendous growth. Soon the company qualified as IATA approved Cargo Agent, in addition to being recognized under the Indian Customs Regulation Act to function as Customs Broker (CHA). Further, the company obtained Multimodal Transport Operator License - issued by Ministry of Shipping, Government of India.

Shaan's spread its wings to cover the entire country and established its own offices in all major cities and ports of India. This enabled the company to provide integrated and comprehensive shipping services under one roof to all its esteemed clients.

Shaan's further expanded its transport division by the name "**SHAANSTRANS**" to coordinate the heavy lift, customs bonded container, movements under its care.

Shaan's with its core strength, is in a very strong position to provide total logistics services to its valuable clients.

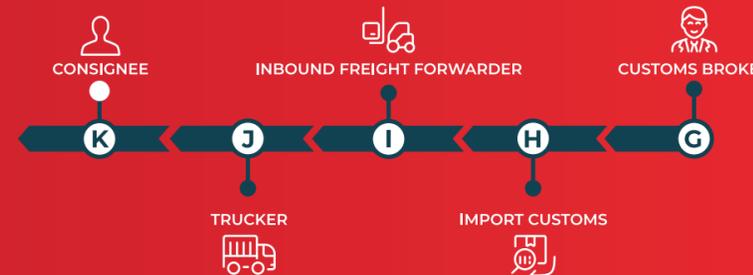

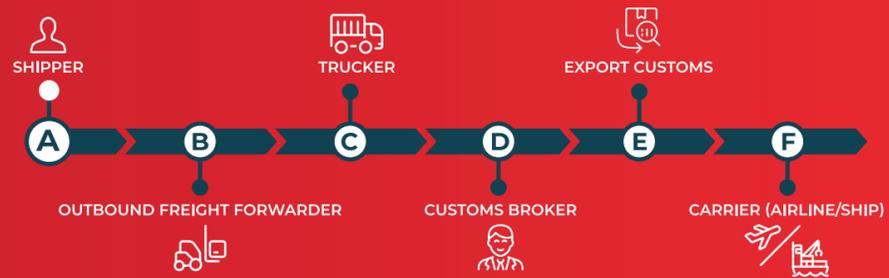

THE STRENGTH BEHIND OUR SUCCESS

Services with extreme perfection and delivering competitive advantage. We call it customer care; Customers call it good services!

We believe that customer satisfaction through dedicated services is fundamental to any successful long-term partnership. Our quality standards meet the expectations of our clients at a justified price.

The entire team is driven by the belief "**Team work, works**" and uses its collective skills, knowledge and combined experience to meet its customer's needs. Strength derived from this synergy is used to its fullest potential to achieve the shared vision of the company and its clients.

OUR MISSION

"Our mission is to uncover the latest logistic solutions for our clients by embedding the best in class technology and people in our firm. Our goal is to amplify our clients growth by making useful predictions that enable strategic decisions".

Quality in a service or product is not what you put into it. It is what the customer gets out of it.
